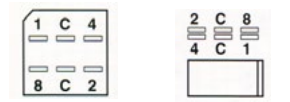
Rotary DIP Switches
3500 Series

Fully sealed miniature switch with a variety of options for data entry. Precise switch detent.
Measures only 9.7 x 9.7 x 4.8mm.

10 pos. BCD Part Number	16 pos. BCH Part Number	Model Description 3 x 3 Pin-out
42-350002	42-350035	Top Adjust
42-350102	42-350135	Top Adjust/Shaft
42-351002	42-351035	Side Adjust
42-351102	42-351135	Side Adjust/Shaft



Top Adjust Side Adjust

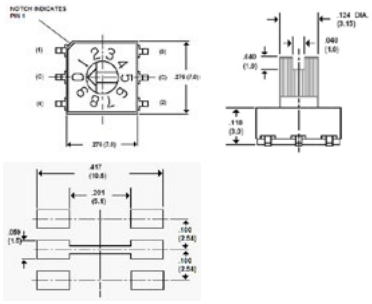
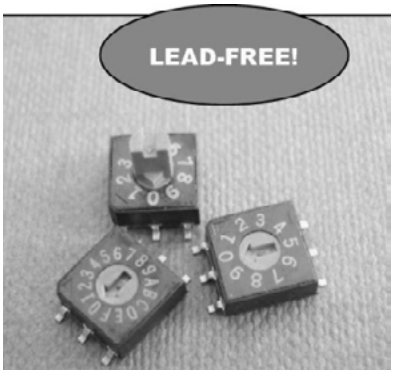
Complement codes also available

Micro-DIP Switches
4800 Series - Surface Mount

Designed to withstand surface mount process temperatures. Low profile, fully sealed miniature package permits close spacing with free air flow .
Measures only 7.0 x 7.0 x 3.1mm.

10 pos. BCD Part Number	16 pos. BCH Part Number	Model Description 3 x 3 Pin-out
42-470002	42-470035	Top Adjust
42-470102	42-470135	Top Adjust/Shaft



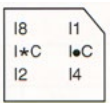


Complement codes also available

Micro-DIP Switches
2300 Series - Double Pole +

Ideal for CMOS applications. The 2300 series switch offers a unique output arrangement in which all four output bits are always connected to one of two commons. This allows the use of a single pull up resistor instead of four.

10 pos. BCD Part Number	16 pos. BCH Part Number	Model Description 3 x 3 Pin-out
42-230056	42-230057	Top Adjust

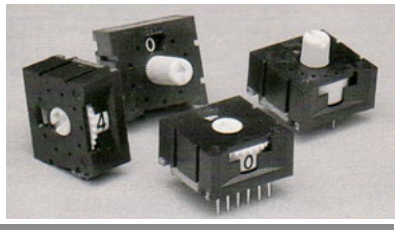


Bottom view of Switch

+ 2 pole with separate common not true bits.

PCB Mounting Thumbwheel
2100 Series

Unique switch which has a finished bezel for front panel access to allow end user adjustment.
1 pole Decimal / 1 & 2 pole BCD & Binary codes available plus a wide range of orientations and options
Dimensions: Width 20.3 x Depth 19.7 x Height 10.9 mm



Thumbwheels
2100 Series

The EECO range of Thumbwheel Switches is very extensive, ranging from industrial to defence specifications, e.g. MIL-S-22710/15. Codes available include single and double pole binary, single and double pole decimal and special purpose codes such as voltage divider and resistance decades. Contact us for full details if you have an application.
